Result-oriented Software Engineer & Team Lead with 2 years of experience specializing in AI/ML, NLP, and scalable Python backend architectures. Proven track record of leading development teams, deploying autonomous AI agents, and architecting complex generative AI systems. Expert in bridging the gap between cutting-edge LLM research and production-ready business solutions.

SKILLS

- **Leadership:** Team Management (2 Juniors), Code Review, Task Delegation, Agile/Scrum.
- **AI & Automation:** Autonomous Agents, GPT/Gemini APIs, n8n, Prompt Engineering, Whisper API, LangChain.
- **Database & Tools:** PostgreSQL, MySQL, Docker, Git/GitHub, Selenium, Web Scraping.
- **Languages:** Python (Expert), C++, Java, JavaScript.
- **Soft Skills:** Strategic Problem Solving, Adaptability, Mentorship, Time Management.
- **Web & Backend:** Python (FastAPI, Django, Flask), REST APIs, GraphQL, Asynchronous Programming, HTML5, CSS3, JavaScript.

EDUCATION

❖ B.Tech Computer Science and Engineering | Medi-Caps University, Indore

CGPA: 8.62 | 2024

❖ XII (CBSE) | Sanmati Higher Secondary School, Indore

PROJECTS

❖ Personalized AI Book Generation Platform

Python, FastAPI, OpenAI, Generative AI, Logistics APIs

- Architected an end-to-end platform where users interact with an AI interviewer (voice/chat) to gather data for a personalized book.
- Integrated a generative engine to create full-length custom books and built a delivery pipeline for users to request physical prints or digital PDFs.

❖ LeadFlow – AI-Driven Automation & Outreach

Python, n8n, REST APIs, WhatsApp/Email Automation, Web Scraping

- Engineered a dynamic lead generation pipeline using **n8n** that fetches leads from frontend triggers and automatically detects business details.
- Developed an AI analysis engine to evaluate business profiles and trigger personalized, pre-trained initial outreach via WhatsApp and Email.

❖ AI-Driven Talent Pipeline

Python, FastAPI, spaCy, NLP, Cosine Similarity, SQLite, AI Interview Bot

- Engineered an end-to-end recruitment platform automating resume parsing, job description matching, and candidate scoring with NLP and cosine similarity.
- Enabled HR teams to shortlist candidates efficiently, conduct AI-powered virtual interviews featuring dynamic questioning and response scoring, and integrate manager reviews with calendar-based scheduling.
- Automated onboarding material assignment tailored to job roles, streamlining the hiring and pre-joining processes.

❖ CallScope – Multi-Tenant AI CRM

Python, Flask, Whisper API, OpenAI, Web Audio

- Developed an intelligent call assistant that captures live audio and transcribes it in real-time using Whisper to generate dynamic agent prompts.
- Scaled the system to support multiple vendor stores, enhancing call center productivity through context-aware AI suggestions.

EXPERIENCE

- ❖ **Team Lead / Associate Software Engineer | TechInfini Solutions** *05/2024 - Present*
 - **Team Leadership:** Promoted to lead a team of 2 junior Python developers; managing end-to-end task delegation, technical architecture, and rigorous code reviews to ensure high-quality delivery.
 - **AI Agent Deployment:** Architected and deployed production-ready Autonomous AI Calling Agents and intelligent assistants, integrating speech-to-text models to automate customer interactions and real estate CRM workflows.
 - **Backend Engineering (Yoga Management):** Developed a comprehensive "Yoga Session Management" system with a Django/PostgreSQL backend, enabling admins to generate personalized exercise plans based on specific user constraints.
 - **Workflow Automation:** Built high-efficiency automation pipelines to extract insights from user conversations using Model APIs, reducing manual data processing time.
 - **Cross-functional Collaboration:** Partnered with product and design teams to deploy ML-backed tools that enhanced internal workflow efficiency and client delivery speed.
- ❖ **Frontend Developer Intern | Smashing Infolabs** *01/2024 - 05/2024*
 - Enhanced UI/UX and implemented reusable components in React for company projects.
 - Integrated backend APIs and introduced dynamic features, improving user experience.
- ❖ **Industrial Training | Cisco CCNAv7** *06/2023 – 07/2023*
 - Gained hands-on experience in subnetting, routing protocols, network layers, and packet analysis.
 - Strengthened knowledge in IP addressing, switch configuration, and network security fundamentals.

POSITION OF RESPONSIBILITY

- ❖ **Team Lead (Python) | TechInfini Solutions:**
 - Responsible for mentoring junior developers, conducting code reviews, and managing sprint tasks for AI-driven projects
- ❖ **House Captain | Mother Teresa Convent School, Khilchipur** *06/2017 - 03/2018*
 - Managed events, mentored peers, and promoted discipline and teamwork culture in school.

CERTIFICATES

- ❖ PCAP Programming Essentials in Python | Cisco
- ❖ Introduction to Cybersecurity | Cisco
- ❖ Cybersecurity Essentials | Cisco
- ❖ Skill Badges - C, C++, Java, Front-end Development | LinkedIn
- ❖ AICTE - EduSkills Data Analytics Virtual Internship *12/2022 – 02/2023*
- ❖ Virtual Experience Program | Accenture *12/2022 – 01/2023*
- ❖ ESG Virtual Experience Program | TCS *02/2023 – 03/2023*

ACHIEVEMENTS

- ❖ GeeksforGeeks 300+ Problem Solved | Coding Ninjas 100+ Problems Solved
- ❖ Delivered 40+ AI and web projects in the past 12 months

HOBBIES

- ❖ Competitive Programming, Exploring Generative AI Tools, Swimming, and Sports.
